151 Dryden Road Apt 605 Ithaca NY, 14853 (570) 851-9200 bae43@cornell.edu

EDUCATION

Cornell University, College of Engineering, Ithaca, NY

Computer Science, expected graduation May 2015

GPA in Major 3.5 | GPA overall 3.14

RELEVANT UNIVERSITY COURSES CS 4620/21: Introduction to Computer Graphics with Practicum

CS 3110: Functional Programming with OCaml

CS 2800: Discrete Structures

CS 2112: (Honors) Object Oriented Design and Data Structures with Java

CS 1114: (Honors) MatLab and Robotics ECE 1210: Smartphones to Super Computers

SKILLS

Languages: Java • OCaml • Mathematica • MatLab • OpenGL

Web Development: HTML5 • CSS3 • PHP, SQL • ColdFusion • Javascript • WebGL Extensive knowledge of 3D modeling, graphic art, and game design using Blender

and Python. Portfolio Available: http://bae43.daportfolio.com/

Moderate Experience and Capabilities in Assembly Language Solved 25 Math & Computer Science questions using Python at projecteuler.net

WORK EXPERIENCE

Paid Intern for the Ithaca Human Services Coalition. – Summer 2012

Built upon a ColdFusion and SQL database and helped create a new site for a

transportation project.

Cornell University Dining, September 2011 – March 2012

Lighthouse Harbor Marina, Summer 2011

PROJECTS

Currently developing a HTML5 Risk type game set on the Cornell campus. Game

utilizes 3D models and rendering in a browser through WebGL.

campusconquest.com/version1.0/demos

Drafted the model of the prototype plastic weapon shell for SPLAT Laser Tag

"Critter World Simulation" CS 2112 final project (with partner). Implemented graph

algorithms, a grammar parse tree, and advanced GUI using MVC design.

HONORS

Bausch & Lomb Science Award, 2010

State Champion Economics Pennsylvania "Business Plan Challenge"

National Merit Scholar Commended Student US Biology Olympiad National Semi-Finalist

ACTIVITIES

Cornell Big Red Marching Band and Pep Band – Clarinet, 2011-2012

Piano, Black Bear Music Conservatory with Dr. Ryan Weber, Director, 1999 – 2010

Volunteered 160 hours for the National Park Service, summer 2010 Monitored forest health in relation to an exotic insect infestation
